Subject: Risk Corridors Payments for 2015

Section 1342 of the Affordable Care Act directs the Secretary of the Department of Health and Human Services (HHS) to establish a temporary risk corridors program that provides issuers of qualified health plans (QHPs) in the individual and small group markets additional protection against uncertainty in claims costs during the first three years of the Marketplace. This program, which was modeled after a similar program used in the Medicare prescription drug benefit, encouraged issuers to keep their rates stable as they adjusted to the new health insurance reforms in the early years of the Marketplaces.

Under the risk corridors program, the federal government shares risk with QHP issuers – collecting charges from the issuer if the issuer’s QHP premiums exceed claims costs of QHP enrollees by a certain amount, and making payments to the issuer if the issuer’s premiums fall short by a certain amount, subject to certain adjustments for taxes, administrative expenses, and other costs and payments. On April 11, 2014, HHS issued a bulletin titled “Risk Corridors and Budget Neutrality,” which described how we intend to administer risk corridors over the three-year life of the program. We stated that if risk corridors collections for a particular year are insufficient to make full risk corridors payments for that year, risk corridors payments for the year will be reduced pro rata to the extent of any shortfall.

Today, HHS is announcing preliminary information about risk corridors for the 2015 benefit year. Risk corridors submissions are still undergoing review and complete information on payments and charges for the 2015 benefit year is not available at this time. However, based on our preliminary analysis, HHS anticipates that all 2015 benefit year collections will be used towards remaining 2014 benefit year risk corridors payments, and no funds will be available at this time for 2015 benefit year risk corridors payments. HHS expects to begin collection of risk corridors charges and remittance of risk corridors payments on the same schedule as last year. Collections from the 2016 benefit year will be used first for remaining 2014 benefit year risk corridors payments, then for 2015 benefit year risk corridors payments, then for 2016 benefit year risk corridors payments.

As we have said previously, in the event of a shortfall for the 2016 benefit year, HHS will explore other sources of funding for risk corridors payments, subject to the availability of appropriations. This includes working with Congress on the necessary funding for outstanding risk corridors payments. HHS recognizes that the Affordable Care Act requires the Secretary to make full payments to issuers. HHS will record risk corridors payments due as an obligation of the United States Government for which full payment is required.

We know that a number of issuers have sued in federal court seeking to obtain the risk corridors amounts that have not been paid to date. As in any lawsuit, the Department of Justice is vigorously defending those claims on behalf of the United States. However, as in all cases where there is litigation risk, we are open to discussing resolution of those claims. We are willing to begin such discussions at any time.
