

## **Effectuated Enrollment: Early 2022 Snapshot and Full Year 2021 Average**

This report provides effectuated enrollment, premium, advance payments of the premium tax credit (APTC), and cost sharing reduction (CSR) data for the Federally-facilitated and State-based Marketplaces (“the Marketplaces”), for February 2022 and for the entire 2021 plan year, as of March 15, 2022.<sup>1,2</sup>

### **Key findings from this report include:**

#### **February 2022 Effectuated Enrollment, Financial Assistance, and Premiums**

- *Effectuated Enrollment:* Effectuated enrollment through the Marketplaces for February 2022 was 13.8 million. This is a 23% increase from 11.2 million consumers who had effectuated coverage in February 2021. The increased coverage over this period reflects the impacts of the 2021 Special Enrollment Periods<sup>3</sup> and the APTC expansion provided by the American Rescue Plan (ARP) passed in March 2021.
- *Financial Assistance:* In February 2022, 12.5 million Marketplace enrollees received APTC, or 90% of total Marketplace enrollees, a 29% increase from the 9.7 million enrollees (86%) who received APTC in February 2021. Additionally, CSR enrollment increased by 25% from 5.4 million consumers in February 2021 to 6.8 million consumers in February 2022.
- *Premiums:* The average total monthly premium before APTC for Marketplace enrollees in February 2022 was \$586.56, compared to \$577.84 for February 2021. The average total premium paid by consumers after APTC fell by more than \$30 (19%) per month from \$157.25 in February 2021 to \$127.03 in February 2022, primarily due to the expanded APTC provided by the ARP.

#### **2021 Average Monthly Effectuated Enrollment, Financial Assistance, and Premiums**

- *Effectuated Enrollment:* On a monthly average, 11.7 million consumers effectuated enrollment through the Marketplaces in the 2021 plan year. This is a 13% increase from the average monthly effectuated enrollment of 10.3 million in the 2020 plan year.
- *Financial Assistance:* Eighty-eight percent (88%) of Marketplace enrollees received APTC on average each month in 2021. This represents a two-percentage point increase from 86% in 2020.
- *Premiums:* The average total monthly premium for Marketplace enrollees in 2021 was \$574.16, remaining relatively stable from \$576.00 in 2020.

<sup>1</sup> The data reported today may be revised in future months as additional data on new effectuations, terminations, and cancellations become available. 2021 data have been revised to account for a new methodology that more accurately counts enrollees who switched policies or made financial changes to their existing policies mid-month. CMS plans to publish effectuated enrollment data for the first six months of 2022, which will include updated February 2022 enrollment data.

<sup>2</sup> The February effectuated enrollment and premium data and methodology for plan years 2021-2022 are posted here: The average monthly effectuated enrollment and premium data and methodology for plan year 2021 are posted here:

<sup>3</sup> For Marketplaces on the Federal platform, the 2021 SEP was made available on HealthCare.gov from February 15-August 15, 2021. For SEP dates of State-based Marketplaces using their own platforms, please see the 2021 Final Marketplace Special Enrollment Period Report, Appendix A (<https://www.hhs.gov/sites/default/files/2021-sep-final-enrollment-report.pdf>).

### CONSUMERS EFFECTUATING ENROLLMENT THROUGH THE MARKETPLACES: FEBRUARY 2022

In February 2022, 13.8 million consumers had effectuated coverage through the Marketplaces, a 23% increase from 11.2 million consumers in February of 2021 (see Table 1).<sup>4</sup> This also represents 95% of consumers who made plan selections during the 2022 Open Enrollment Period (14.5 million). In thirteen states, total effectuated enrollment increased by 30% or more from February 2021 to February 2022, with Texas seeing the largest increase at 45%. Over the same period, total effectuated enrollment decreased in four states, falling by more than 10% in Massachusetts and the District of Columbia.

In February 2022, 12.5 million, or 90%, of Marketplace enrollees received APTC, a 29% increase from 9.7 million enrollees (86%) who received APTC in February 2021. CSR enrollment increased by 25% from 5.4 million consumers in February 2021 to 6.8 million consumers in February 2022.

**CONSUMERS EFFECTUATING COVERAGE THROUGH THE MARKETPLACES: PLAN YEAR 2021**

Provided below is information on consumers with effectuated coverage for the 2021 plan year. On a monthly average basis, 11.7 million consumers had effectuated coverage through the Marketplaces in the 2021 plan year. This is a 13% increase from 10.3 million in the 2020 plan year. In 25 states, total average effectuated enrollment increased by 10% or more from the 2020 plan year to the 2021 plan year, while total average effectuated enrollment fell by more than 10% in one state (New York) over the same period.

On average, 10.3 million, or 88% of, Marketplace enrollees received APTC each month in plan year 2021, a two-percentage point increase from 86% (8.9 million) of enrollees that received APTC each month in plan year 2020. The monthly average percentage of enrollees receiving CSR remained constant at 50% for the 2020 and 2021 plan years.

Source: Data as of March 15, 2022, CMS

Table 5 includes the monthly effectuated enrollment by state for the 2021 plan year. In 2021, monthly effectuated enrollment peaked in October at 12.4 million consumers, following the end of the 2021 Special Enrollment Period in most states, and fell slightly to 12.2 million by December. Effectuated enrollment increased throughout the year in 2021 compared to 2020, when enrollment declined from a high of 10.5 million consumers in February to 9.9 million consumers at the end of the year.
